WHOLESALE PRICE LIST OF COTTON SEED #504.

The prices below are our very lowest wholesale and are as low as can be expected under the present conditions. Already we have had the greatest demand in our existence and no doubt will be sold out before the planting season begins. It is our advice to every one to buy their seed immediately. If not they will pay an enormous price and will be lucky to get any seed at all. Staple cotton seed of the Webber #49, #82 and Hartsville #12. Also Mixson's Wilt Resistant 1-5/16 staple are in large demand this season and very scarce, only the earliest buyers will secure any of these varieties.

Our advice is to have your Cotton seed shipped at once on account of the apparent uncertainty of transportation which might develop seriously at any time. There is a large demand for planting seed over the states of Texas, Mississippi, Louisiana, Arkansas, Alabama and other sections of the belt on account of excessive rains which spoiled the seed in the fields. We had no rain whatever during the picking season here and our stock is sound, clean and pure. We are having large demands from these sections in addition to our regular customers and it looks as if we will be unable to supply the demand. So let us have your orders at once.

Simpkins Ideal, King Early, Cleveland Big Boll Mixson's Extra Early Big Boll, Covington Toole Wilt Resistant, Dixie Wilt Resistant, Sugar Loaf, Toole Prolific, Moneymaker, Bank Account and others in 10 bu lots and less at \$2.65 per bu. and above 10 bu. and up to 25 bu. \$2.50 per bu. and above 25 bu. and up to 50 bu. \$2.35 per bu. and above 50 bu. and up to 100 bu. \$2.25 per bu.
